8 picks
2 sidewalk scrapers
5 stone hammers
3 shovels
1 plow
2 ice cutters
8 drills
1 sled for road machine
1 cant hook

G. L. TILTON, Road Agent.

MINOT-SLEEPER LIBRARY

This valuable adjunct to the educational faculties of the town continues to be highly prized by the people of Bristol, and the past year has been a very prosperous one for this institution.

During the year two generous gifts have been made to the library. Charles L. Jackman, Esq., of Concord, presented fifteen shares of the Capital Fire Insurance Company of Concord, of the par value of $1,500, to the library to constitute a fund to perpetuate the memory of his deceased wife. This fund is known as the Minnie Maria Day-Jackman fund.

The chief conditions of this munificent gift are:

That the income shall be used to purchase such magazines, papers and periodicals published semi-weekly, weekly or monthly as the trustees or other governing body of the Minot-Sleeper library shall direct. That the magazines, etc., so purchased shall be kept in said library and that its patrons shall have access to them subject to such reasonable rules and restrictions as the trustees shall impose; that such magazines, papers and periodicals shall have on the outside cover of each a suitable card, stamp or other device, bearing the inscription, "Furnished by the Minnie Maria Day-Jackman Fund." That the library shall be kept open at least two days of each week between the hours of six and nine o'clock in the evening. That the grantor shall have the right to vote as proxy on these shares during his lifetime, or under certain condition sell the same and purchase with the proceeds such securities as the savings banks of Massachusetts are allowed by law to

invest in; that as soon as may be after his decease, this stock shall be sold at auction in Concord, and the proceeds invested as above. That a failure to comply with these conditions, causes the forfeiture of this gift.

The agreement was signed by the trustees of the library, the selectmen of the town and by Mr. Jackman.

Dr. Geo. H. Calley, the treasurer of the trustees, received in December the first dividend on this stock, amounting to $30, and the reading room was opened Jan. 1, 1900. It contains all the leading magazines and some of the leading weeklies. It is greatly enjoyed by our people, especially by the young, who are thus brought into contact with the best literature of the day and the beneficial effects of this reading room upon the community are beyond compute.

All above the age of eleven years are now permitted to enjoy the privileges of the library and reading room, and both are now open from 1 till 5, and from 6 till 9 o'clock Saturdays and from 6 till 9 p. m. on Wednesdays.

In January the Dodge-Davis Manf. Company presented to the trustees $200 for the purchase of books. The late Mr. and Mrs. David L. Davis of Enfield left a legacy for the starting of a library at the office of this company, but it was thought, under all conditions, that the intentions of the donors could in no way be so successfully carried out as by the presentation of said sum to the Minot-Sleeper library for the purchase of books, and the company therefore presented this amount to the library.

This sum will be expended mainly in the purchase of historical and scientific books as being in keeping with the desires of the donors.

We present below a part of the report of the librarian to the trustees.

For the Trustees,

CHANNING BISHOP, Secty.

No. of books in circulation Feb. 7, 1899	3,309	
" added during the year	184	
" lost during the year	1	
Present number		3,492
No. of reference books and pamphlets on the shelves Feb. 7, 1899	1,075	
No. added during the year	142	
Present number		1,217
No. of books of photographs		3
Total number of books on the shelves Feb. 3, 1900		4,712
Largest number of books issued in one day		177
Smallest number issued in one day		44
Average number issued in one day		150
Number of patrons Feb. 3, 1900		720
Amount received for fines	$8 08	
Cards	1 30	
Catalogues	70	
Total		$10 08

Our library has had another prosperous year. We have been pleased to note that the interest in good reading has greatly increased, especially among our boys and girls.

The change of the age limit from 13 to 11 years has been highly appreciated and immediately increased the number of patrons. Opening the library on Wednesday evenings has also given much satisfaction.

The new reading room opened through the generosity of Mr. Charles L. Jackman is being enjoyed by a larger number each week. In the one month since the opening of the reading room 179 persons have enjoyed the privilege of

reading the 15 monthly and 7 weekly magazines placed upon the tables.

More room is greatly needed and we hope that the gift of Mr. Jackman will incite others to remember our needs and thus erect a monument which will not only perpetuate their own names but be a benefit and blessing to our community.

Respectfully submitted,

EMMA PRATT BERRY, Librarian.

This is to certify that I have this day examined the foregoing report of the Bristol village Fire Precinct and have found them correctly cast and proper vouchers for the same.

GEO. B. CAVIS, Auditor.

Bristol, N. H. Feb. 26, 1900.

REPORT OF BOARD OF HEALTH

During the past year, there have been reported to the board, eight cases of scarlet fever resulting fatally in two instances; two cases of diphtheria with one death, and two cases of measles. Only one case of typhoid fever has come to the knowledge of the board, and that, indirectly; as it was not reported.

The board considers that during the past year the town has been remarkably free from contagious diseases owing in a great measure to improved sanitary conditions.

Lake street from Central square to Union street, is now in first class condition so far as sewers are concerned, and the turning of the sewer from Union street, into the main sewer on Lake street, seems to us to be one of the greatest improvements that have been made for a long time; yet there remains much to be done in that line before our town can expect to be entirely free from contagious diseases.

The board has been called upon to examine one sink drain only, the owner of which promptly remedied the defect when notified.

We desire to impress upon the minds of the people of Bristol, that a liberal use of water in their sink drains and sewers will result in less diphtheria and typhoid fever, and as the town is now liberally supplied with water, there can be no good excuse for not using it for that purpose

Respectfully submitted,

CHAS. W. FLING,
D. M. CALLEY,
C. A. SMITH,
} Board of Health.

SCHOOL REPORT

Union District No. 2

At the beginning of the spring term, 1899, Miss Grace Dearborn, teacher of the primary school, resigned because of illness; she had taught the school for three consecutive terms with good results; Miss Dearborn is a faithful, earnest teacher, possessing a pleasing manner, which wins the love of her pupils. Miss Fannie M. Stimson, a graduate of the Concord Training school, was engaged to fill the vacancy; with sixty-six small scholars, she did most excellent work.

At the close of the school year, Miss J. Mae Swain, who had been principal of the schools for four years, resigned her position. Miss Swain is a lady of marked attainments and ability; her pupils esteemed and respected her.

The board were wonderfully fortunate in securing Miss E. Belle Calley to assume charge of the schools; her previous work here and added years of experience at Concord bespeak the success of her work in any school. Miss Eva Barney, teacher of the sixth and seventh grades, was a most conscientious and faithful teacher; she was succeeded by Miss Enid H. Adams, a teacher in the Concord training school, whose work is very gratifying and satisfactory. The fourth and fifth grades are singularly fortunate in retaining the same teacher for so long a time, Miss Mary Taylor completes her third year at the close of the coming term. Also the third and fourth grades have been greatly benefited by having a teacher like Miss Grace Sargent for four continuous years. The primary and first

grades were forced to have another change of teacher at the beginning of the year, Miss Mabel Lane, a trained teacher of Concord, was engaged to take the place of Miss Stimson, who was offered a much better position at her home; Miss Lane shows great patience and devotion to her pupils which bring good results.

When our State Superintendent, a man of long experience in school work, says, after a visit to our schools, in reply to the query "What are your criticisms of our teachers and their work?" "I have none to make," other comment seems unnecessary. The attendance has been very good for the entire year, three terms unbroken by an epidemic is quite an event in the late history of our schools.

The grading of the schools is as nearly perfect as possible with present building. The crying evil for years "the overcrowded primary room," has been wholly remedied, 36 being the largest number registered the present year. A course of study has been introduced, but it can not be fully adopted until the ninth grade passes out. Instruction in drawing has been given by the teacher of each room and much interest has been shown by the pupils in this work with pleasing results. Music has been taught during the year, and in this the children have shown much efficiency.

The text-books are wholly new, save the language and grammars, which are the best of their kind. The town report shows the disposal of all of the old books, which were the accumulation of years, many of them being out of print. The present books are of the latest edition and used in the leading city schools. Book publishers say the ordinary life of a school book is fifteen years, so our books have just begun their usefulness.

There has been a gratifying increase of visits by parents

and residents, which greatly pleases and assists the teachers, but this increase is far too small as yet. The "historic" seats in the ninth grade have been replaced by new and comfortable ones; now, the seats in all of the rooms are in excellent condition, excepting those in the primary room, these should be removed; they are unfit for use. The blackboards have been much improved by a slate coating. The sanitary condition of the building is terrible, some changes have been made the past year but no improvement can be made with existing conditions. The ventilation is another formidable evil which should demand the immediate and forcible attention of the district.

In behalf of the Board of Education.

IDA A. WEYMOUTH, Supt.

TREASURER'S REPORT

OF THE BOARD OF EDUCATION OF UNION SCHOOL DISTRICT, NO. 2, FOR THE YEAR ENDING FEB. 15, 1900.

FRED H. ACKERMAN, Treasurer.

I hereby certify that I have this day examined the receipts and accounts of Fred H. Ackerman, treasurer of Union School District No. 2, and find them to correspond and be correct.

KARL G. CAVIS, Auditor.

Bristol N. H., Eeb. 19, 1899.

REPORT OF SCHOOL BOARD

Another milestone has been reached in the history of our schools and it becomes the duty of the school-board to make their annual report. In doing this we are pleased to report that the usual prosperity has attended them. The teachers evinced a good degree of interest in their efforts and in general proved sufficient for their work. We heartily coincide with last year's report that we cannot have good schools without good teachers, and good scholars as well. Our district schools are small, yet the scholars seemed to use their privilege to the best advantage.

Your committee have intended to faithfully discharge their duties and we close the work of the year with the satisfaction of knowing that we have done the best we could.

Respectfully submitted,

SARAH F. WORTHEN,
SILAS S. BROWN,
H. TAYLOR HEATH,
} School Board.
